

# SOCIAL LOGIN - USER GUIDE

Version 1.0.0

## Demo

Frontend Demo: [http://demo.litextension.com/social\\_login/index.php/customer/account/login/](http://demo.litextension.com/social_login/index.php/customer/account/login/)

## Setup

Refer to our [Extensions Installation Guide](#) and follow the installation steps.

## CONFIGURE SOCIAL LOGIN

After installation succeeded, you will see Social Login appears in System > Configuration left panel.

Click Item System > Configuration. On the left panel, find LITEXTENSION section, then click Social Login.

Enter application ID and application key for each social network you want to integrate, then choose Enabled: Yes.

## HOW TO CREATE SOCIAL NETWORK APPLICATIONS

Social network Applications are required in order to integrate the login functionality into the module. Each social network has its own method and tutorial to create an application. Please refer to the links below for detail:

Facebook: <https://developers.facebook.com/docs/opengraph/getting-started/#create-app>

Google: <https://cloud.google.com/console#/project>

Twitter: <https://dev.twitter.com/apps>

Linkedin: <http://developer.linkedin.com/documents/authentication>

Yahoo: <https://developer.apps.yahoo.com/projects/>

## SOCIAL LOGIN AT FRONT-END

You can see the Social Connect section at the bottom of Login page now.

Customers can use this functionality to login to website using their social accounts without the need of registration.

## NEW CUSTOMERS

By creating an account with our store, you will be able to move through the checkout process faster, store multiple shipping addresses, view and track your orders in your account and more.

[Login](#)

## SOCIAL CONNECT

You can login using your social network account.

## KNOWN ISSUE FOR INSTALLION BY MAGENTO CONNECT AND FIX

This issue only happens sometimes with installation by Magento Connect, it won't happen if you choose to download the package from our store and install following our Installation Guide.

For some users who have experienced the issue blank popup when clicking on a Social Login Button, or seen a warning like "Attribute `le\_sociallogin\_fid` or `le\_sociallogin\_ftoken` not exist !", please update the module to the latest version and run this link to fix the issue:

[http\(s\)://yourwebsite.com/\(index.php\)/le\\_sociallogin/fix/connect/](http(s)://yourwebsite.com/(index.php)/le_sociallogin/fix/connect/)

Note: please carefully check whether your url consists of [http\(s\)](#) and [\(index.php\)](#) and enter the link correctly.

## INSTALL SOCIAL LOGIN ON A CUSTOM TEMPLATE

For custom templates which do not use the default template structure, please follow this to install the module:

1. Download the module package from our store
2. Refer to our [Extensions Installation Guide](#) and follow the installation steps.
