Alex Nguyen

Our Service

Shopping Cart Migration

LitExtension provides a possibility to migrate products, customers, orders with all corresponding data to a desirable shopping cart.

All-In-One Migration Service

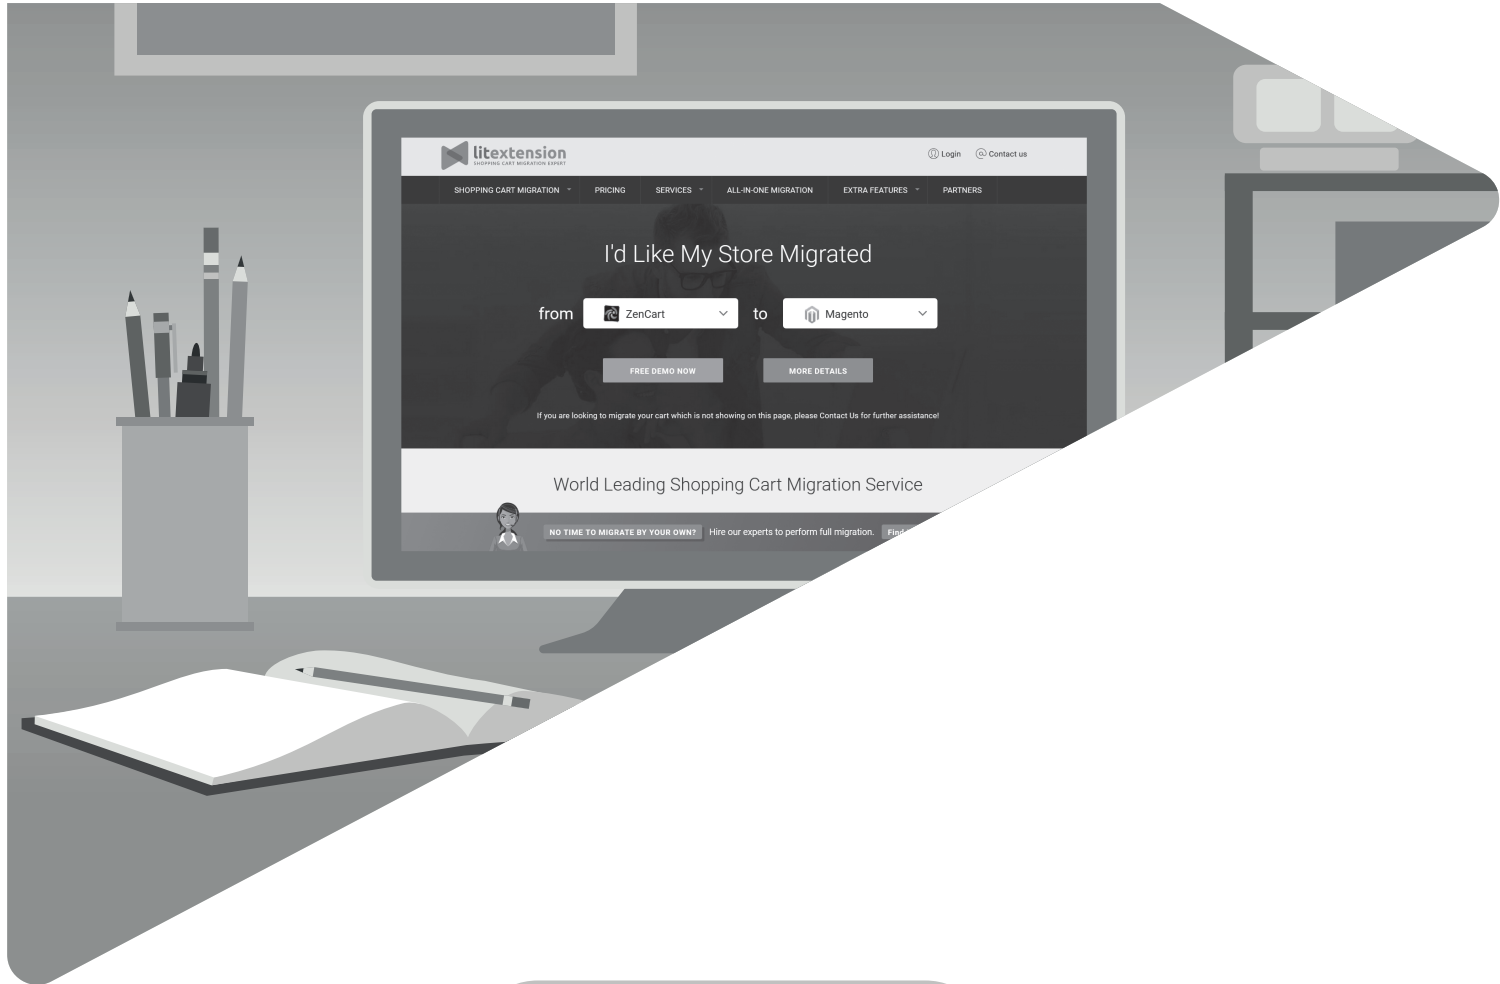

The full service which our data experts will take care your data migration process from the beginning to the end, including all potential matters possibly arising in your migration process.

Extension Migration Service

LitExtension provides brilliant solution to migrate data from extensions developed by one provider to another one.

We work hard to build trust with customers, by offering top quality servicing. It's easier to keep customers than to always look for new ones.

SaaS eCommerce Platform

130,000+ Stores Migrated

40,000+ Worldwide Customers

85+ Carts Supported

98% Satisfied Customers

How We Work

It is very easy to migrate data from your shopping cart to another platform. There are few simple steps to get your migration job done.

**UNLIMITED
FREE
DEMO**

Setup Source and Target Stores

Select source and target store type from dropdown list. Enter your stores URL and follow our brief instruction to set up the Connector.

1

Select Data You Want To Migrate

Choose the entities you want to migrate. Languages and order status will be matched together in order to be displayed correspondingly in the new store.

2

Perform Full Migration

Now, you may start migration. Once the migration process is kicked off, it will be constantly running even when you turn off your browser. Your data will be moved to new store as your expectation.

3

We do not store your data on our servers, data will go directly from your source to target with highest level of security.

How We Protect Your Data

We at LitExtension prioritize data security and have a set of practices, technologies and policies in place to ensure the highest level of security for your data.

Server Security

All migration jobs will be carried out on Linode servers located in USA, UK, Germany, Singapore, Australia.

Data Security

The exchanged data is protected by HTTPS secure protocol and 128-bit SSL encryption.

Data Access Security

Only authorized engineers can access the source code, handle custom migration requests and work on support cases.

GDPR Compliance

GDPR is a global data protection law passed by the European Union. LitExtension is compliant with GDPR regulations.

NDA

We do not keep your credentials or imported records after the migration is complete.

Payment Security

We're using Paypal – the # 1 payment gateway for every orders. All your payment data is processed by Paypal

What Customers Say About Us

Let's take a look at some of the reviews of people who have used LitExtension on Trustpilot.com - Customers review site.

The average score is 4.8. That is an excellent score because the rating Good is about 98%.

“

LitExtension literally rocks. Look no further for migrations!

You don't need to look any further than LitExtension for migrating from one platform to another. These guys know what they are doing. They will go out of their way to make sure that your migration runs as smooth as possible and that all of your data is migrated across. I highly recommend using this company A+++++
